Plants**

112 Varieties

**Beautiful Gardens Bring
Joy to All**

**Visitors Are Welcome
At Our Gardens**

Dear Friend:

You will find in the following list of annuals many choice varieties as well as many kinds of flowers in separate colors. The use of these varieties will aid you in carrying out color schemes in your garden and make your garden different from your neighbors, "a little out of the ordinary." Thus you will get more pleasure out of your garden.

Many people think they want only perennials in their gardens, but most experienced gardeners find it necessary to use some annuals if they desire to get the best effects and have a continuous supply of blooms. Annuals may also be planted over tulip beds. If you are living in a rented home you can have a garden without going to the expense of buying many perennials. You can get a whole dozen annual plants for the price of one perennial and they will bloom nearly all season for you.

Children having their first garden would probably get more enjoyment and encouragement out of annual flowers than any other kinds of plants.

We will be glad to pot up any of our annuals for those who feel that they prefer potted plants; provided the orders are received early enough for the plants to become established before being moved to your garden.

We will be glad to have you visit our gardens, and will do all we can to give you satisfaction.

Early orders help us a great deal in giving good service because then we can make reservations before the spring rush starts.

While we are buying the best strains of seeds possible we wish to call your attention to the fact that it is very seldom that plants grown from seed will come one hundred percent true to color.

Yours sincerely,

PERKINS BROS.

PRICES

In general we have made a reduction in all our prices. The prices quoted include delivery on all orders over \$2.25 except for potted plants which should go by express. When potted plants are ordered with other plants for local delivery by our truck there will be no extra charge.

On all cash and carry orders amounting to two dollars or more a special discount of 5 percent will be allowed.

All orders are received subject to crop being unsold and losses beyond our control.

PERKINS ANNUAL PLANTS
